

Personal Electronic Device Policy

In order to maintain a distraction free learning environment, Mater Dei Apostolate enforces an “away for the day” personal electronic device policy. Upon entrance of the Mater Dei education center, students will be required to turn any and all personal electronic devices (included but not limited to cell phones, tablets, smart watches, laptops) into the office for safe keeping. Devices will be kept in individual compartments within the office.

If students need to use their device during the day for an emergency or communication with parents/guardians, they may do so at any time from within the office. Before leaving the Mater Dei education center, students may come into the office to retrieve their device.

Personal electronic device use is prohibited in the hallways, classrooms, student lounge, parish or any other area within the Mater Dei education center with the exception of the office.

Violation of this policy will result in confiscation of the device for the day and/or further disciplinary measures as determined by Mater Dei Apostolate administration in conjunction with the student’s parent/guardian.

I have read, understand and agree to comply with the above stated Personal Electronic Device policy for Mater Dei Apostolate in regards to my child/children or ward/wards.
